

# Control Flow

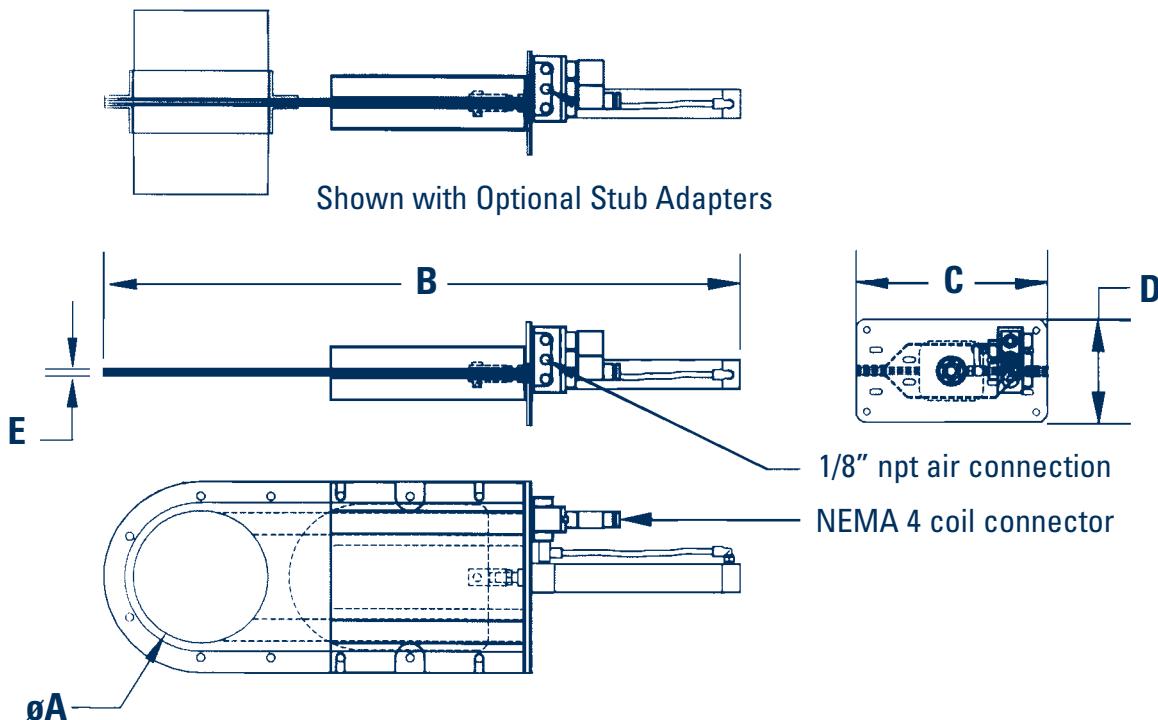

**Expand**  
**Your Existing**  
**Dust Systems**

The Donaldson®  
Torit® Control Flow  
automatic knife gate is  
the low cost answer to  
expanding your existing dust  
system.

By installing the control flow  
valves on machines that are used  
only part time, you can easily increase  
the number of pick up points in your shop.  
All without costly investment in new filters  
and fans.
